

TREMPRO® 635+

High-Performance, Fast-Curing, Single Component,
Hybrid Polymer Sealant

Product Overview

TREMPRO® 635+ is a durable, flexible, sealant that offers excellent performance in static and non-static joints and offers a strong adhesion profile once fully cured.

TREMPRO 635+ demonstrates excellent adhesion to a wide variety of substrates, including most metals, glass, vinyl, plastic, fiberglass, and composite substrates. It is specially designed for use as a topical sealant in the fabrication of residential windows, RV's, cargo trailers, semi-trailers, trucks, buses, railcars and specialty vehicles.

Features & Benefits

- Excellent adhesion to dissimilar substrates
- Exceptional movement capability of + 35%
- Fast curing with a skin time of 20-40 minutes
- Very low VOC, no odor, and UV stable
- Available in ultra-clear, translucent, white, grey, black and custom-matched special colors
- Superior replacement for silicone sealants and dangerous high VOC thermoplastics and tripolymers, used inside or outside of the unit
